Office Action Summary

Art Unit: 1615

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

Claims 1-6 are rejected under 35 U.S.C. 102(c) as being anticipated by Knight et al.

Knight et al. teach a vehicle comprising an active wherein the active is added to a hot melt and extruded (claims 1-4). Powdered active is specified (column 8, line 42). Shaping is disclosed (column 8, lines 6-9). As to the claimed flavoring, invert sugar (column 7, line 7) is specified. As to the claimed viscosity, such property is inherent in the anticipatory composition because it is the same as that claimed.

No claims allowed.

Bauer et al. and Voigt, ⁱⁿ ~~and~~ German, were only considered insofar as the disclosure in the specification.
